10. DETAILED NARRATIVE OF INVESTIGATION

On 15 July 2026 at approximately 20:35 hrs, the complainant Rahul Kumar, aged 34, a software engineer residing at Prestige Shantiniketan, Whitefield, was walking along ITPL Main Road toward his residence after leaving his office. As per his statement recorded under BNSS Section 173, he was approached from behind by a black Bajaj Pulsar 220F motorcycle bearing registration KA03AB4567, carrying two male riders. The complainant stated that the motorcycle slowed down beside him near the junction adjacent to Shop No. 12, ITPL Main Road, at which point the rider (subsequently identified as Accused 1, Ravi Kumar, aged 31) dismounted and produced a single-edged folding knife with a blade of approximately six inches, holding it toward the complainant's abdomen while verbally threatening him with harm if he raised an alarm.

The complainant further stated that the pillion rider (subsequently identified as Accused 2, John Mathew, aged 29) remained astride the motorcycle and forcibly pulled the complainant's laptop bag from his shoulder, in which the stolen Dell Latitude laptop was contained. Accused 1 is alleged to have simultaneously removed the complainant's wallet from his trouser pocket, containing identification documents and cash of ₹48,500, and to have snatched a 22-karat gold chain, approximately 15 grams, from around the complainant's neck, causing minor abrasions. The complainant stated that the entire incident lasted approximately ninety seconds, after which both accused fled the scene on the motorcycle in the direction of Kadugodi, at high speed.

The complainant proceeded to the residence of a nearby acquaintance and contacted Whitefield Police Station at 21:52 hrs. A police team led by the undersigned, Inspector S. Ramesh, along with Sub-Inspector K. Manjunath and two constables, reached the scene of occurrence at 22:04 hrs. The complainant was found to be in visible distress but physically uninjured save for minor abrasions to the neck. A preliminary scene examination was conducted; the crime scene sketch (Annexure-A, reference WPS/SKETCH/0142/2026) was prepared marking the point of confrontation, the direction of the accused's approach, and their escape route toward Kadugodi Main Road.

Witness statements were recorded from three individuals present in the vicinity at the time of occurrence. Witness 1, Suresh Nair, proprietor of a shop at ITPL Main Road, stated that he observed a black motorcycle with two riders slow down near the complainant and heard raised voices, but did not initially realise a robbery was in progress due to poor visibility from his shop's vantage point. Witness 2, Priya Shetty, a resident of Green Meadows Apartments, stated that she witnessed the motorcycle speed away toward Kadugodi immediately after the incident and was able to partially recall the number plate sequence, which corroborated the CCTV-derived registration KA03AB4567. Witness 3, the security guard on duty at the complainant's apartment gate, D. Basavaraj, corroborated the complainant's distressed arrival and the approximate time of the incident.

FIRST INFORMATION REPORT (FIR)

10.1 CCTV Review: Investigators retrieved footage from three CCTV cameras in the vicinity — one mounted outside Shop No. 12 on ITPL Main Road, one at the Green Meadows Apartments entrance, and one at the Prestige Shantiniketan main gate. Footage timestamped 20:33:47 hrs to 20:36:12 hrs from the Shop No. 12 camera clearly captures a black motorcycle matching the description approaching the complainant, a brief struggle, and the motorcycle departing toward Kadugodi Main Road at 20:36:05 hrs. The registration plate KA03AB4567 was confirmed through frame-by-frame enhancement of the footage by the technical unit.

10.2 Vehicle Tracing: A search of the vehicle registration database confirmed KA03AB4567 as a Bajaj Pulsar 220F registered in Bengaluru Urban district. Field enquiries at the registered address did not yield the vehicle's current custodian; the registration is under further verification with the Regional Transport Office to determine whether the plate was cloned, as is common in similar street-robbery cases in the Whitefield jurisdiction. Patrol units were alerted to intercept the vehicle, resulting in its recovery on the night of 16 July 2026 near Kadugodi, in the possession of Accused 1, Ravi Kumar.

10.3 Apprehension: Acting on the vehicle alert and inputs from a police informant regarding suspicious movement matching the description near Kadugodi, a police team apprehended Ravi Kumar at approximately 23:20 hrs on 16 July 2026. The knife described by the complainant was recovered from his possession at the time of apprehension. Based on Ravi Kumar's disclosure statement, his associate John Mathew was traced to a rented accommodation in Hoodi and apprehended on 17 July 2026 at 07:15 hrs. Partial recovery of stolen property — the gold chain and a portion of the cash — was effected from the residence of Accused 2 during a search conducted in the presence of independent panch witnesses.

10.4 Phone / Call Analysis: Call Detail Records (CDR) for mobile numbers 9876543210 and 9988776655 were requisitioned from the respective service providers under due process. Preliminary analysis places a handset associated with 9988776655 in the cell-tower coverage area of ITPL Main Road at the time of occurrence, which is consistent with the complainant's account. As noted in §5, the number 9876543210 was recorded both as the complainant's own contact number at intake and, separately, in a field note attributed to Accused 1 during apprehension; the investigating team has flagged this for verification against the service provider's subscriber records before it is relied upon as evidence, to rule out a transcription error at the point of arrest.

10.5 Forensic Examination: The recovered knife, along with lifted fingerprints from the complainant's bag strap and the motorcycle's handlebar, have been forwarded to the Forensic Science Laboratory (FSL), Bengaluru, for examination. Fingerprint comparison against the apprehended accused is pending and will be appended to the case diary upon receipt.

10.6 Officer's Observations: The modus operandi — two riders on a motorcycle, one armed with a bladed weapon, targeting a lone pedestrian after dark on a stretch of ITPL Main Road with limited street lighting — is consistent with a pattern of street robberies reported in the Whitefield jurisdiction over the preceding quarter. This case has accordingly been flagged for cross-referencing against other open robbery cases in the same beat to assess a possible link, pending review by the station's crime-analysis desk.

10.7 Investigation Status: As of the date of this report, both accused persons — Ravi Kumar and John Mathew — are in police custody. The motorcycle KA03AB4567 and the knife used in the offence have been seized and are held in the station malkhana under seizure memo. Partial property recovery has been effected. The investigation remains active pending FSL reports, CDR analysis confirmation, and further enquiry into the vehicle registration discrepancy noted in §10.2. This report will be updated via supplementary chargesheet as the investigation progresses under
