

FIRST INFORMATION REPORT

(Under Section 173 Bharatiya Nagarik Suraksha Sanhita, 2023 — Consolidated Series Report)

FIR No. (Latest in Series)	FIR-2026-0004
Crime Registration No.	0509/2026
Police Station	HSR Layout Police Station
District	Bengaluru City
Date of Registration	22 July 2026
Time of Registration	10:05 hrs

1. CLASSIFICATION OF OFFENCE

Act	Sections Applied	Nature of Offence
Bharatiya Nyaya Sanhita (BNS), 2023	S.305 House-breaking; S.331(4) House-trespass by night; S.317(2) Theft after preparation for causing hurt	Serial Residential Burglary

2. SERIES OVERVIEW

Linked FIRs in Series	14 (FIR-2026-0004 through cross-referenced FIRs listed in §3)
Common Suspect (assessed)	Single male suspect, consistent across CCTV and forensic indicators — identity under confirmation
Common Vehicle	Silver Maruti Suzuki WagonR, registration KA02EF7788, observed at 11 of 14 scenes
Jurisdiction Span	HSR Layout, Koramangala, BTM Layout, and Bommanahalli police station limits
Series Window	03 May 2026 – 21 July 2026

3. LINKED FIRs IN SERIES (14)

#	FIR No.	Date	Locality	Registering PS
1	FIR-2026-0004	22 Jul 2026	HSR Layout Sector 2	HSR Layout PS
2	FIR-2026-0311	14 Jul 2026	HSR Layout Sector 4	HSR Layout PS
3	FIR-2026-0298	07 Jul 2026	Koramangala 5th Block	Koramangala PS
4	FIR-2026-0276	29 Jun 2026	BTM Layout 2nd Stage	BTM Layout PS
5	FIR-2026-0254	21 Jun 2026	HSR Layout Sector 1	HSR Layout PS
6	FIR-2026-0231	13 Jun 2026	Bommanahalli	Bommanahalli PS
7	FIR-2026-0219	06 Jun 2026	Koramangala 8th Block	Koramangala PS
8	FIR-2026-0198	30 May 2026	HSR Layout Sector 7	HSR Layout PS
9	FIR-2026-0187	24 May 2026	BTM Layout 1st Stage	BTM Layout PS
10	FIR-2026-0172	18 May 2026	HSR Layout Sector 3	HSR Layout PS
11	FIR-2026-0165	15 May 2026	Koramangala 4th Block	Koramangala PS
12	FIR-2026-0151	10 May 2026	Bommanahalli	Bommanahalli PS
13	FIR-2026-0139	06 May 2026	HSR Layout Sector 6	HSR Layout PS
14	FIR-2026-0128	03 May 2026	BTM Layout 2nd Stage	BTM Layout PS

4. PATTERN INDICATORS ACROSS SERIES

Indicator	Observation
Common Vehicle	Silver Maruti Suzuki WagonR, KA02EF7788, captured on CCTV within 500m of the scene in 11 of the 14 linked incidents, typically parked 15–20 minutes prior to entry
Escape Pattern	In 12 of 14 cases, entry via rear grille window between 01:00–03:30 hrs; exit and vehicle departure consistently toward the Hosur Road service lane, avoiding main-road CCTV corridors
Tools Recovered / Identified	Flat-head jimmy bar (consistent pry marks at 13 of 14 scenes); glass cutter (used on 4 scenes with grille-and-glass combination windows); tool markings forensically matched across FIR-2026-0004, 0311, 0298, and 0254
Fingerprints	Partial latent print lifted from window frame at FIR-2026-0311 and FIR-2026-0254 scenes shows 11-point match; same print class (not yet a full match) noted at 3 additional scenes, pending AFIS comparison
CCTV Timestamps	Vehicle entry-to-exit window consistently 22–28 minutes across all 11 vehicle-linked scenes, suggesting a rehearsed, time-boxed method rather than opportunistic entry
Target Selection	All 14 targeted residences were unoccupied ground- or first-floor units with visible newspaper/courier accumulation at the gate, suggesting pre-surveillance of occupancy patterns

5. SUSPECT PROFILE (Assessed — Series-Wide)

Description	Male, approx. 28–35 years, medium build, height ~5'7"–5'9", consistently seen in dark clothing and a full-face helmet across CCTV footage
Vehicle	Silver Maruti Suzuki WagonR, KA02EF7788 — registration traced to a since-cancelled address in Electronic City; ownership-transfer records under verification
Modus Operandi	Rear-window entry via grille removal or glass-cutting, targeted jewellery and electronics, avoided cash-only locations, consistent 22–28 minute on-scene window
Confirmed Identity	Not yet established — partial fingerprint match and vehicle registration are the primary active leads

6. NARRATIVE OF INVESTIGATION

Following the registration of FIR-2026-0004 on 22 July 2026 — a burglary at a residence in HSR Layout Sector 2 in which jewellery and electronic items were reported stolen from an unoccupied ground-floor unit — the investigating team cross-referenced the modus operandi against the station's crime-pattern database and identified thirteen prior incidents across HSR Layout, Koramangala, BTM Layout, and Bommanahalli police station limits sharing a materially similar method, spanning back to 03 May 2026.

A silver Maruti Suzuki WagonR bearing registration KA02EF7788 was identified on CCTV footage within 500 metres of the scene in eleven of the fourteen linked incidents, typically arriving 15–20 minutes before the estimated time of entry and departing toward the Hosur Road service lane — a route that consistently avoids the main-road CCTV corridor, indicating deliberate route selection rather than coincidence.

Physical evidence recovered across the series shows a consistent tool signature: pry marks at thirteen of the fourteen scenes are forensically consistent with a flat-head jimmy bar, and a glass cutter was used at four scenes involving combination grille-and-glass windows. Tool-mark comparison conducted by the Forensic Science Laboratory has confirmed matching characteristics across FIR-2026-0004, FIR-2026-0311, FIR-2026-0298, and FIR-2026-0254, supporting the assessment of a common perpetrator.

A partial latent fingerprint lifted from the window frame at both the FIR-2026-0311 and FIR-2026-0254 scenes shows an eleven-point match, which under standard forensic protocol supports a strong presumptive identification of a common individual, though it has not yet been confirmed against a named suspect through AFIS. Prints of the same ridge-pattern class, short of a full match, have been noted at three further scenes and are pending detailed comparison.

CCTV timestamp analysis across the eleven vehicle-linked incidents shows a strikingly consistent on-scene window of 22 to 28 minutes from vehicle arrival to departure, suggesting a rehearsed and time-boxed method rather than opportunistic entry. Cross-referencing occupancy indicators — in particular, visible accumulation of newspapers or undelivered courier items at the gate — across all fourteen target residences suggests a degree of pre-surveillance of occupancy patterns prior to each burglary.

Registration records for KA02EF7788 trace to an address in Electronic City that is no longer current; a request for ownership-transfer history has been made to the Regional Transport Office. This vehicle lead, together with the fingerprint evidence, currently constitutes the primary active line of enquiry. All fourteen linked FIRs have been formally cross-referenced in the station's case-management system, and the series has been flagged to the district crime-analysis desk for consolidated pattern review and potential association with similar reported series in adjoining jurisdictions.

Investigation Status: Active and ongoing across all fourteen linked cases under this consolidated series review. AFIS comparison, vehicle-ownership tracing, and CCTV canvassing of the Hosur Road service-lane corridor remain pending. This report will be updated as the series investigation progresses and will be filed as a supplementary report against each of the thirteen prior FIRs listed in §3.
